## TX series

Class - Power Amplifier

The TX series of power amplifiers
are a very versatile and efficient yet affordable option for those requiring an all-purpose device. Implementing Power Factor Correction technology along with Universal Main Regulated SMPS power supply and Class D power modules, the TX series combines in the same amplifier all the functional requirements found on most sound reinforcement applications.

Technology
Class D
Audio Class D technology implements the most advanced electronics within the smallest form-factor amplifier modules. The Class $D$ amplifiers implement the most efficient sound amplification technology avaiabie today, providing an unmatched
system portability and affordability with the best sonic performance.

Power Factor Correction
innovative Power Factor Correction (PFC) technology along with its renowned $R$-SMPS power supply allows to drawn current from the mains in a more efficient way translating to a higher
out power with a lower power consumption. Additionally PFC out power with a ower power consumption. Additionally PFC
improves audio quality; it generates lower harmonics of the mains improves audio quality; it generates lower harmonics of the mains
frequency thus reducing the hum and induced distortion because of perturbed mains.

## Universal Mains R-SMPS

Company renowned Regulated SMPS power supply has been Curther improved with universal mains operation on all the range from 90 V to 260 V eliminating the need for market specific power supplies and related reliability issues. The Universal Mains Reg
SMPS power supply delivers consistent power world- wide.

Features

- Class D power modules.

XLR signal input and link connector
SpeakON NL4 and binding-postort. - Input sensitivity selector on the back panel ( $0.775 \mathrm{~V} / 1 \mathrm{~V} / 32 \mathrm{~dB}$ ). - Input sensititity selector on the back panel ( $0.7 /$ Routing mode selector on the back panel (stereo / bridge-
paralle). parallel).

- Mains circuit-breaker on the back panel(only TX5200). Channel independent protection and clip warning indicators on the front panel.
- Channel independent power and $-5 \mathrm{~d} \mathrm{~B} /-10 \mathrm{~dB} /-20 \mathrm{~dB} /$ signal
presence indicators on the front pane
Low unit weight( TX800-TX3600 $)$
Applications
- Sound reinforcement applications with mid power density and

Sood sounding requirements.

- Small to mid sized bar/cafél/lounge installation.

TX800 rear panel
Specifications

| Model | TX800 | TX1200 | TX2400 | TX3600 |
| :---: | :---: | :---: | :---: | :---: |
| Output power (AC 220V / $50 \mathrm{~Hz} . \pm 10 \%$, All channels driven output power, THD $=1 \%$ ) |  |  |  |  |
